**Allotments**
Legal status of allotments and grow gardens is integrated in building and land zoning regulations - everybody has the right to grow their own food.

**Educated Eating**
Green Supermarkets reduce over-purchasing and waste, left over / surplus foods given to charity.

**Alternative Education Techniques**
Experiential ‘hands-on’ and ‘life-long learning’ shape the new vision. Training for horticulture, food production and nutrition become integral school subjects.

**Carbon Food Budgets & Personal Food Credits**
Food is allocated a carbon rating related to its food miles and production intensity.

**Agri-Tourism and Eco Holidays**
Experiential learning and eco-credits gained from being on farms & in the field.

**Vertical Urban Farms**
High density urban farming.
